SALINAS · JUNIOR · COLLEGE

Vol. IX | Salinas, Calif., Friday, September 15, 1939 | Number 2

ENROLLMENT

Registration Exceeds the Seven Hundred Mark

Salinas Junior College had the largest enrollment ever recorded here when enrollment figures totaled 722 Monday afternoon. This is an increase of 28 per cent over that of last year. Students are still signing their names to the register at a good clip, for Monday, 19 more had signed up.

Four hundred and twenty-eight of these students are in their first year here.

Second year students total 258 while special students number 23 and post graduates 13.

Salinas, the mother city, sends the largest number of scholars to J. C. to total 258.

Watsonville's 150 J. C. students top the list for out-of-towners. Monterey's 75 rank third while the following line-up in order: Santa Cruz 57, Pacific Grove 55, Gilroy 38, Gonzales 23, King City 22, Carmel 21, Hollister 12, and Morgan Hill 11.

Other available figures show that at the conclusion of the first week last year, 551 students had enrolled as compared with 703 this year. At the conclusion of the second week of school last year, 562 had signed up as compared with 722 of this year, even though this week still had four days to go.

Because of the additions to the building during the past year, there is plenty of room and accomodations for all. Overcrowdedness in classes, however, has necessitated adding sections to several courses, the most popular being public speaking, English A, business mathematics, office machines, and home economics.

Increased enrollment has jammed the buses. Some in particular are packed like sardines and it wouldn't be surprising if seats were assigned on the top of the buses like those of Fifth Avenue, New York.

Just picture students taking their own cars to school, picking up a few pals on the way, and trying to collect gas money from the college. Better still, picture eight Santa Cruz students hitchhiking to school because of overcrowded bus conditions and S. R. O. signs, or six from Monterey doing the same thing.

Yes, Salinas is growing up, and plenty fast at that.

Rally

Werner, Sauble, Welcome Students At First Rally

To open the first student body meeting of fall, Friday last, President Ted Spaulding made a short welcoming speech, followed by a helpful talk by Miss Lescisin. She encouraged the girls, especially the newcomers, to feel free to come into the office at all times.

President Werner, much surprised to be called upon to speak, welcomed new students by saying "hello to a pretty nice bunch of people in a pretty nice place," and expressing his hope that our no-rules-or-regulations policy would continue to hold forth.

Mr. Sauble spoke on the Service Awards system, and Mr. Perry, of the Purity Stores, added his bit to the welcoming. Mr. Perry also expressed his appreciation for all the swell Jaysee games in presenting a trophy to be known as the Perry trophy. This, Mr. Perry explained, will carry the engraved name of each outstanding player for the next four years. At that time the school will be presented with a similar, larger trophy.

After brief pep talks by Coach Winter and Cheer Leader Glen Howland to acquaint students with the organibations they may join invitations were extended on behalf of the Toastmasters Club, Men's Club, and Junior Chamber of Commerce.

Community singing closed the program with several repetitions of "Hail, Alma Mater," the able assistance of Mr. McCann's band.

FROSH RECEPTION

Gala "First Affair" Is Proclaimed Huge Success

To welcome the lowly freshmen and to initiate these neophytes into the mysteries of "college daze", a reception was held last Friday night at the new gym of Salinas Jaysee. The gym is the newest addition to the school and the frosh considered themselves fortunate to have the first dance held there be in their honor. Dancing and gay frivolity held sway after a week's hard work of rushing from class to class and learning and unlearning many of the fundamentals stressed in high school.

Jack Nelson's band from Watsonville, which has pleased hundreds of the younger set throughout the past years, provided the musical background which was plenty "swingy" with the soft-sweet tunes interspersed so that the "alligators" and the waltz-lovers were all satisfied with what they received at the Salinas freshman reception.

A musical novelty of the evening was a Pony Express dance. To explain this dance more fully, four couples started and at intervals the orchestra would cease playing and the respective "studes" would leave the floor and claim new partners. In this way the ice was broken and the students became acquainted more readily.

The highlight of the evening took place when a mock "Kay Kyser's Musical College" was in session. Almost everyone enthusiastically participated in the musical college, but the valedictorian was Bill Cavalli, who proved himself to be the true musical scholar by answering correctly most of the questions put to him. Doug Schwartz took the part of "Kay Kyser", giving a very good imitation of him. Charles Stefan, the announcer, also portrayed his part very well. Hank Eaton, who was supposed to kick the gong around, so to speak, was really very subtle in his attack.

In order to more fully acquaint the upper and lower classmen, numbered cards were distributed to the guests at the door. Prizes were given to the couple whose respective numbers coincided, carrying out the "get acquainted" theme of the dance.

All these novelties were very much appreciated by the newcomers from various parts of California and out of state. The spirited feeling of unity of the students toward the school prevailed and many lasting friendships were formed.

When the last strains of the final tune were played, students left gayly but a little reluctantly, feeling that the most perfect frosh reception in Jaysee history had ended much too soon.

N. Y. A.

WORK BUREAUS, JOBS, SALARIES EXPLAINED

N. Y. A. in common terms means help, in a financial way, to more than 90 students in our school who would not be able to attend without this aid. Salinas Junior College has just as large a percentage of its students working their way through as Cal, U. C. L. A., or any of the larger colleges. One-third of the N. Y. A. students are working their complete way through with no outside help.

These students must maintain a grade average of C or better. Every six weeks a checkup is made and if the students are not up in their grades they are dropped and the hours are given to more worthy students.

The N. Y. A. students receive salaries of from $10 to $20 per month. The majority, however, is from $12 to $14 per month. The N. Y. A. is going slightly over its quota this month as the students need a good deal of money for tuition and books. This year more jobs have been provided by cutting down on the number of working hours.

Miss Lescisin has complete charge of the N. Y. A. Besides this she has charge of the placement bureau. This bureau does a great deal toward helping students through school by filling jobs in town. Last year through the placement bureau 125 students were given jobs down town. Of these, 28 were temporary, 80 were part time, and 17 were full time. Two hundred and eight students were aided last year by the N. Y. A. and placement bureau combined.

N. Y. A. is an aid to the school as well as to the students employed. Some of the jobs given are landscaping, stenographic work, general office work, library club work, lab and gym assistant work, and even modeling for the art classes.

Building

"OUR HOME" ENLARGED BY TWO UNITS

To students in their second year here at Salinas Junior College the recently completed construction units, numbers 2 and 3, seem somewhat familiar, although they were but skeleton structures when these students left them last June. To new students they seem utterly strange in their newness and modern design. To all of us, new and old alike, they represent home, which in the nine months to come, will house our work, play, smiles and tears.

Now that we all are united in one great happy family and hold a nine-months' lease on this, our home, let us set about studying its composition.

Mr. Gustafson, building foreman on unit No. 2, saw to it that his "job", a new gym and handball court, was properly and faultlessly erected. The finished product is a beautiful stucco building with a structural steel frame, which, besides embracing a spacious handball court, contains the tops in gym floors, new locker and shower rooms, a basement, and three classrooms. The latest in sprinkler systems and an underground electric service top off this great asset to our college, unit No. 2.

Mr. Thompson, foreman on unit No. 3, deserves applause for successfully completing his task, which, as is evident, is the newest unit on the campus. This extensive addition is a stucco buildhouses a cafeteria, a little theatre and several classrooms, including the huge, well-lighted engineers' classroom.

There, students, are the newest additions to the physical wealth of our home. Now, let us start from the inside and build out and up, socially, scholastically, and athletically.

U. G. C.

An informal reception for all new women students will be held next Tuesday, September 19, in the Jaysee library during 7th period. The Upsilon Gamma Chi is taking the opportunity of this, its first social event, to welcome all its new members. Presided over by Evelyn Heinsen, with Mrs. Hope Baxter as faculty advisor, the U. G. C. is an organization in which all women students of Salinas Jaysee are automatically members. General chairman for the reception is Ruth Nunes, who is also vice president of the club. Ann Matiasevich heads the entertainment committee; Jane Miyake, decorations; Dorothea Dawson, publicity; Trevora Peterson, refreshment, and Jean Bailey, clean-up.

"Hitler Successful Radical, But Will Fail", Dr. Hall

"Hitler is a successful radical and demagog—but it is doubtful that he will succeed in fulfilling his wishes — conquering Poland and setting up a mighty German Empire."

This is the opinion of our eminent, lettered Dr. Luella Hall, instructor of philosophy, political science and history. She believes that training the younger generation in Hitlerism, and making the older generation "swallow" it, is truly a crime against modern civilization. Hitler and the other dictators should have been stopped long before this final outbreak.

Dr. Hall is able to comment on this subject because of her visit to Germany in 1938, during which she sensed evidence of the present crisis.

Men's Club

NOVEMBER SUPPER PLANNED

The Men's Club held their first meeting September 12, 7th period, in the Little Theatre, in order to elect officers for the coming semester and to acquaint the members with the functions and activities of the club.

Bert Stokes, all-conference tackle, was elected president by a large majority. Dick Carlisle, school politician, took over the duties of vice-president; Ed Wesley was elected secretary and Herb Jacobson was given the responsibility of handling all of the club's money.

Mr. Eris complimented the large group of boys for their wonderful co-operation in coming to the first meeting and he advised the Block "S" boys to go out and round up the lovers who, instead of attending the meeting, were out courting their "best gals".

He also spoke on the dinner to be given by the Men's Club and advised that the committees for this affair be selected. Mr. Eris emphasized that the frosh make up the majority of the committees because next year they will be sophs and they will be held responsible for a successful entertainment at the supper. If these frosh help on this year's committees, they will make next year's club supper more successful because they will have that added experience. So, come on you frosh, let's all offer our assistance in furthering this grand occasion.

The date for the dinner this year has been changed and we are not sure of the date at present, but Mr. Werner and Mr. Eris will try to arrange to have it on the eve of the Armistice Day game. After the supper, a big bonfire rally is to be held for the Menlo game.

Leaders

JC STUDENTS IN CHARGE OF ROTARY MEET

With football as the general theme, Salinas Junior College students took charge of the regular Rotary Club meeting last Tuesday, and following an address by Bud Winter, junior college mentor, the German Band from the college opened the student part of the program with appropriate gusto by rendering several band numbers.

A skit was given by the public speaking class called "Guide and Guidance" which was concerned in giving the Rotarians an idea of what difference there is between the attitude of persons who are and those who are not interested in the activities of young people.

Several vocal numbers were then given. Ernestine Morehead, a talented alto, sang "La Paloma". A girl duet sang "Sympathy" from the operetta "Firefly".

The German Band comicly arrayed in a conglomeration of ill-fitting attire, produced perfectly blended music which emanated from their mellowed instruments with unerring pitch. It split the confines of the Hotel Jeffrey with beautiful harmony and threw the members present into frenzied football spirit. Members of the band which marched judiciously from the room after their musical outburst, were Phillip Knoche, clarinet and leader; Earl McDaniels, clarinet; Alva Andrus, trumpet; Don Stewart, bass; Arthur Kerner, trombonist, and Bernard Nerrell, bass drum.

With the closing of Coach Winter's speech, Mr. Everett Knowlton, member of the board of trustees and chairman for the day, closed the momentous gathering with two bangs of the gavel on a nearby desk.

Battery Editorials

STRIPPING OF BLOCK AWARDS

In an effort to make every new student who wears a block sweater feel at home in this, his new environment, the Block "S" Club requests that all athletes strip themselves of all foreign exhibitions of prowess, meaning, of course, high school block awards.

Those wearing block award sweaters "advertising" any school other than Salinas Jaysee are assured that the sweaters themselves my be worn at any time on the campus, but, they must be void of the block letter. Arm stripes, medals, pins and stars may be exhibited to the wearer's advantage, but school names in script, metal or paint are not to be displayed prominently on the SJC campus.

Of what use would be this junior college's bi-colored banner and own award sweater?

If the maroon and gold is elevated to a high degree of reverence through the elimination of high school block letters, Salinas Junior College block awards will take on the important significance intended for them. There will also be established the all-important school spirit, loyalty and morale which indicates the presence of an ace-high student body union.

SOCIAL ACTIVITIES

The new Social Activities Committee held its first meeting Thursday for the purpose of discussing proposed dances and social affairs to be held soon. The Social Activities Committee, appointed by Ted Spaulding, is composed of Jean Meese, chairman, Ellen Lowell, Margaret Honsucker, Elyse Bartenstein, Gerald Hansen, Joe Maddalena, Art Langdon, Don Paul, Jack Devine, Alice Varara, Gene Cava, Ernestine Morehead, Betty Geddes, Margaret Fernie, Florence Boyd, and Dorothy Hall. The function of this group is to approve and supervise all social activities given by any club or organization.

The procedure for putting on a student body activity is as follows: First, the group must secure a petition blank from Mr. Sauble, faculty advisor of the committee. After filling in the blank and guaranteeing that all required work will be done, the petition comes before the committee, who discuss and approve or reject the plan.

This committee has a hard year's work ahead of it, and assistance is always appreciated. Those interested in committee work will be offered n opportunity to participate if they will see President Ted Spaulding or Jean Meese.

Musical Notes

Stepping out in their bright maroon and gold uniforms, the 40-piece band of the Salinas Junior College paraded at the Monterey County Fair Thursday afternoon. Since it is their first parade this year, Mr. McCann says that it was only their rehearsal for the big game with Santa Barbara on September 22.

At this game, as at all the rest of home games this year the band will give a performance well worth coming to the game to see. The band is to step out at the games with an escort of not just one drum major but three. Watch for them.

Since the band made such a hit with the student body at the rally last Friday, they have been working extra hard to prepare all the music they can for your enjoyment at the games. Come out with all the school songs and be prepared to sing them at the games.

The music department this year has enlarged to such a degree that there have been added many new and interesting courses. In the instrumental department there is the band, orchestra, woodwind ensemble, trombone quartet, and violin choir.

Since the music room has been moved from the "barn" into the main building, enrollment has increased and the students are enjoying much better facilities.

The concert orchestra made such a good reputation at its first day's rehearsal that it will probably be heard frequently during the year.

The vocal department will present a light opera on December 8. Although the opera has not been selected, it will be on the order of the "Firefly," "Robin Hood," "Pirates of Penzance", or "The Chimes of Normandy." Rehearsals for the light opera are starting immediately, and Miss Lowe asks that all students who are interested in leads or chorus work, please try to come out to rehearsals during the ninth period, or see her. Parts of the chorus will practice on different days, so there will be no need of coming every day. This work will be dropped as soon as the light opera is presented so the students can study for their finals.

There is a shortage of male voices, so all those boys who like vocal work can find it in room 16 during ninth period.

GAMMA NU OFFICERS CHOSEN, PARTY IS HELD

The Gamma Nu sorority held its regular meeting Tuesday, September 5 at the home of Betty Tholcke. Plans for the forthcoming year were discussed. The new officers, President Betty Tholcke, Vice-President Eunice Walling, Secretary Jean Meese, Treasurer Nona Harney, Sergeant-at-Arms Leatha Hicks, Corresponding Secretary Phyllis Gwynn, and the members are planning to take in a group of pledges early in this semester.

This off-campus sorority was organized last semester by a group of sophomore girls for charitable and social works, and has been very active in both fields. Charter members were Myrleen Koehl, Joyce Wiggins, Georgia Lyke, Betty Tholcke, Jeanne Dennis, Peggy Young, Dottie Crook, Laurie Pilling, Genemarie Anderson, Eunice Walling, Doreta White, Barbara Bentley, Jean Hollingsworth, and Sally Hayes. Pledges initiated last semester were Jean Meese, Ruth Nunes, Leatha Hicks, Nona Harney, Phyllis Gwynn, Kay Mercer, and Evelyn Heinsen.

One of the most enjoyable events of last year was the weekend house party held at the Hayes ranch in Gilroy for the Gamma Nu pledges. The members of the Salinas Chapter of the Pi Delta Koppa fraternity were invited to attend a barbecue at the ranch on Sunday to climax the weekend.

The first social event of this new semester will be a tea to be given at the home of Doreta White on Sunday, September 17.

ORCHIDS TO OUR PRES.

Sept. 12, 1939.

Dear Mr. Werner:

We appreciate the service that you are rendering to our boys and girls. As your school grows they feel more and more that they are able to get the courses that they desire.

Sincerely yours,
A. B. INGHAM,
Principal, Pacific Grove H. S.

TED SPAULDING REVEALS A NEW SET OF PLANS

When our model of superiority, Jack Kympton, left us last year, the shoes of the president of the student body were immediately filled by a natural leader, by name, Ted Spaulding; by reputation, an unusually hard worker, and one whose wishes and ideas warrant immediate consideration. In the last issue of the Battery, published in May, Prexy Ted released the following list of improvements and revisions as a few of the most important which will be put into effect at the beginning of this school year.

A balanced budget will be set for this year and adhered to. As President Spaulding stated, "The student body fund is not a gold mine; it can't be nicked for everything and be expected to cover all the activities that it is supposed to." In connection with this balanced budget, a purchase order for everything, no matter how trivial, will be required this year.

There is to be a set schedule of activities for this year, thus eliminating last minute affairs which are a hindrance to school morale and spirit. A full calendar of social activities is to be set up and, if supported favorably by the students and organizations, will be maintained throughout the term.

A definite plan of assemblies is going to be insisted on. In fact, six professional entertainers have already been contracted for with several more extremely interesting assemblies being planned.

Also, everything possible will be done to make things more convenient and enjoyable for extra-curricular activities. To do this, a time and place for club and organization meetings will be provided.

As is shown by the above list this program is quite pretentious and will be very efficient if it is supported. However, the success of this plan, meaning whether or not Salinas Jaysee has a banner year with activities, depends upon the degree of backing which the students give to the officers and their offices.

The officers are enthusiastic regarding the success and spirit of this semester's enrollment. All that remains now is a similar promise of enthusiasm by the student body as a whole.

EASLING

Art appreciation is the only class that has had a decided decrease in the number of students enrolled, with 28 members in comparison with last year's 46.

"Otherwise," Mr. Amyx stated, "there has been a substantial increase in most of the classes and an immense addition to the ranks of art majors. Practically 100 per cent of last term's majors have returned, making almost four times the size of last year's classes."

With 30 members enrolled, the form and composition class is the largest; figure drawing with 21 students, and color and design with 16 members are the next largest.

Expression, sponsored by the Art Club, is a new group, giving one unit. This class is given Mondays and Wednesdays, eighth period, with members of the Art Club acting as teachers. The main subject will be crafts. So far, the class has only two members, since it was decided upon too late to be put in the catalog. Students wishing to enter are to see Rita del Piero or Mr. Amyx.

New Cafeteria and Coffee Shoppe Are Serving to Capacity

The students of Salinas J. C. aren't starving this year. The new coffee shop is producing many extra pounds and a lot of worry for the glamour girls. The food is so good your swell little G just keeps eating.

It opens at 7:45 every morning and is open to hungry loafers and hardworking teachers for the rest of the day. You students really shouldn't let this out, but isn't it true that every time you have been in the coffee shop there has been at least two teachers in there, which could mean only one thing, that is, that they, too, find it a hungry loafers paradise.

The student helpers serve over 600 people a day. A week ago last Wednesday there were 678 enrolled in our Jaysee, and the cash register rang up 678 times. Amazing, isn't it? They sell on the average of 400 milkshakes a day, and 12 pounds of ground round steak. Their motto is "We serve only the best."

If you haven't tried it, better hurry and remedy your mistake.

The popularity of the new cafeteria and coffee shop was indicated by the number 680, that were served on the first day of school. The red and cream shop, seating 60, was busy from morning until night, while the cafeteria, intended for those who bring their lunches and wish only a milkshake or something similar, had four customers.

Mrs. Fulle and the student helpers, by means of the new equipment, capably managed the coffee shop from the time that the first breakfast was served until the last bus left. Mrs. Fulle reports everything went smoothly, without hitch or complaint.

The need for an eating place has long been felt. Old students will remember the halls strewn with milk bottles and paper. This modern cafeteria fills the need admirably.

Mergers

From time to time the names of students and former students of Salinas Junior College who marry or become engaged will appear in this column. Here are the names of those who took advantage of the summer vacation:

Lucille Curtis — Graduate of Salinas Jaysee was married recently in Carson City to Kenneth Tucker, a rancher of Priest Valley.

June weddings: **Jack Thornburg,** who was popular around Jaysee, wed **Dorothy De Hay** of Salinas. **Helen Black** and **Rod** Ferguson, she a former student of Salinas, pledged their vows on June 10.

Laura Meyer is now known as **Mrs. Bob Henderson** following her recent marriage to Bob, late of Salinas J. C.

Engaged: **Olin Vansandt** and **Joan Foster,** both students at Jaysee. Joan is sporting a lovely diamond on that certain finger. The engagement was announced at Del Monte in June.

Stokes (in cafe): "Give me a steak, raw on one side and rare on the other."

Nodilo: "Give me a steak and make it thicker and more rare."

Trotter: "Just clip the horns off and run the bull in here . . . I'm hungry."

So What?

A certain Salinas miss who's in the running for varsity vamp must have got her wires crossed. It seems she had a surplus of boy friends at the freshman reception. She's living proof of what a personality can do for you.

Have you noticed the dreamy look in Jack Dolan's eyes and the way he says "huh" when his friends startle him out of his meditation? Helen Biddleman, of Watsonville, must be the cause. Can you blame the lucky guy?

"She Found Her Yellow Basket" is the theme song of a Monterey mademoiselle. About the campus she carries that long missing basket, neatly packed with a pair of dark glasses, a small sized whisk broom, and a spot of lunch. What's the point?

When a big black convertible Ford V8 goes zooming by and you see pretty blond hair flying, you'll know that Hank "Galahad" Eaton is courtin' Dot McAdams."

A lot of hearts were smashed to little pieces when Ellen Lowell paraded into the frosh reception with her ex-boy friend —Burr Scott. You know, you can't run away from love.

Ross "Ace" Beamer, who's glance causes feminine hearts to do nip-ups, seems to have been dazzled himself by the perky little red-headed Marion Carter.

Saturday night the rover boys (all eight of them) packed themselves in Bob Ford's "Willie's Nightie" and honored "Cap" with their presence. "A good time was had by all" eh, what? Open letter: Mr. Pope, why do you do those things?

Ben "Confirmed Bachelor" Crawford has his studying eye on a blonde freshman. She had better beware, he doesn't do these things often.

The striking little blonde, Sherry Rogers, from Gilroy, seems to be very much impressed by Wayne Ashford. They have been seen constantly together.

THE WOMAN IN THE HALL

To the questions: Where are you from? What are you majoring in? and, What do you think of Salinas Junior College? this department has assembled answers from various students about the campus. We are happy to report that most comments are favorable to the school, but then . . . read them for your self:

KATHERYN HAMM, a Carmel student majoring in music, said, "The school isn't as large as I expected it to be, but on the other hand, I didn't expect to have so much fun."

JOHN MAPA, who is from Hollister and is studying aeronautics, reported that "there are lots of swell kids here and it's easy to get acquainted, but I'm going to try to study a lot this year."

DOROTHY SNOWDEN, of Monterey, is majoring in commerce and answers to the question, "The teachers let you do what you think is best. It's sort of hard to get acquainted, but the people I know are grand."

PAT STIPP, who is from Berkeley, but is living in Watsonville, is planning to be an advertiser. He says, "I am tired of hitch-hiking to school every morning. Can't we have an 8 o'clock bus?"

MARY LOU MEIDL, a commerce student from Watsonville, likes the school because "everyone's so friendly and there are so many activities."

JOHN de LORIMIER is from Pacific Grove and is majoring in engineering. Of the college he sighs, "Words can't express my feelings."

VANCE SNYDER, of Santa Cruz, takes time out from his studies in chemistry to comment on the girls at school. "Chase me, girls," he says, "I'm full of kisses."

ALVA ANDRUS, an engineering student from Salinas, thinks that "it is swell, so far. School spirit is keyed up higher than I've ever seen it before."

GORDON BROWN, of San Leandro, a student in aeronautics, simply says, "Oh, it's a mighty fine school."

OLIVE BARLING, a Santa Cruz girl who plans to be a nurse, thinks "the cafeteria is marvelous and the frosh reception was so much fun."

FRED KMETOVIC, who is majoring in P. E., and is from San Jose, says, "If I pass it"ll be O. K."

MARY PERALTA is from Monterey and is taking a prenursing course. Mary answers, "I am looking forward to the night football games."

—0—

Pope: "I killed five flies today, three males and two females."

Vella: "How can you tell a male from a female fly."

Pope: "Well, three sat on the beer bottle and two on the mirror."

Soph: "Come on, take a bath and get cleaned up; I'll get you a date."

Frosh: " Yeah, and then what if you don't get me a date?"

Doctor: "I'd like to have a quart of blood for a transfusion. Can you give it?"

Leonard: "I can only give you a pint—I gotta shave tomorrow."

CHIC -

By SHERI

Clothes are a deciding factor in the success or failure of college life, so before the heat of registration, the "Smart Co-ed" goes on a shopping binge. The result is a well-chosen wardrobe that causes girls to follow her with feline glances, and makes the boys doubt that "Only Angels Have Wings."

During these first weeks that have been crammed with getting back to the old grind, she has proved that she knows her "Vogue." You've seen her wearing a hip-length cardigan of soft Shetland yarn, a matching sweater and a slightly flared, contrasting skirt. You've seen her in one of the old standby combinations of a plain colored skirt and matching Chasmere sweater with a jacket of exciting plaid. But not all her clothes are new. She may be smart, but she's not extravagant. To the skirts and sweaters that she has already she adds a novelty necklace or a massive bracelet that gives the outfit oomph!

Our co-ed is quick to feel the pulse of fashion as is shown by her choice of colors this season. Her new skirt is of moss green, her date dress is of crushed grape, and her tailored suit is of dragon-fly blue. Last year she sported vivid contrasts, but now she uses colors that harmonize subtly.

Her swanky brown alligator oxfords carry top honors in footwear, but there will be days when she'll be true to her old pals, her white saddle shoes.

Our co-ed has vision. She is not resting on her laurels, but she is planning for the future. She's looking over the new modes and deciding which trends to follow. Taking up fads for the sake of fads is not in her line. Unless new creations are suited to her personality, flattering to her coloring, or complimentary to her figure, she turns thumbs down.

A new campus coat is the first on the list. It will be a sturdy boxy number of camels hair (it's back again) made so it can be rolled up, sat on, and rained on without showing the strain.

In the rooting section at the first football game our miss plans to wow them with a simply tailored wool in red and green clan plaid. And if she's in luck she'll be swish in her sister's brown chubby.

From the world of tomorrow come those bubbles of beauty, those intriging blown glass necklaces and bracelets in rainbow colors that pep up her basic dress.

We've given the lowdown on her wardrobe in the present and in the immediate future, but what about the months to come? Will Miss Smart Co-ed prove that the pioneer spirit is not dead in our campus coquettes? Like the belles of a fashionable girls' school in the east, will she carry the torch for that tomboy combination, the above the knee wool skirt with below the knee knitted stockings? The gauntlet has been cast. We'll be watching for her answer.

—0—

Joan W.: "Whenever I'm in the dumps I get myself a new hat."

Marie H.: "I was wondering where you got them."

Reference List of Clubs

Richard J. Werner, president of the college, and Ted Spaulding, president of the student body, urge all those who are interested to join and enjoy the benefits of the following clubs:

Men's Club

Membership: Open to all male students of the college who have paid their student fees.

Purpose: To promote and sponsor intramural sports among the men of the college; to promote the big brother policy toward new men students and to foster friendship and understanding among the men of the school.

Upsilon Gamma Chi

Membership: Open to all female students of the college who have paid their student fees.

Purpose: To promote co-operation and friendship among the women of the Salinas Junior College. Sponsors of the big sister movement and the Women's Club House.

Filipino Students' Club

Membership: Filipino students of the college.

Purpose: To promote friendship and to acquaint the students with Filipino customs.

Women's Athletic Associatnon

Membership: Open to all women interested in athletics.

Purpose: To promote and sponsor intramural sports for women.

Junior Toastmistresses Club

Membership: Open to women students of the junior college, subject to approval of the club.

Purpose: To promote a more effective means of expression through practice and constructive criticism.

Junior Soroptimist Club

Membership: Open to women students of the junior college, subject to approval of the club.

Purpose: To acquaint women students with the problems of the woman in business.

Sigma Alpha Pi

Membership: By petition and acceptance by the club.

Purpose: To promote more socialbility, activity, and progressiveness in the junior college.

Japanese Students' Club

Membership: Open to the Japanese students in our student body.

Purpose: To promote more and varied social activities and friendships for the Japanese students in the club.

Engineers' Club

Membership: Open to students enrolled in the various engineering courses.

Purpose: To aid in the preparation for engineering school and to discuss the problems of the engineer.

Junior Toastmasters' Club

Membership: Any interested male students of the college. Members pass on all applications.

Purpose: To learn and practice the elements of good public speaking.

Art Club

Membership: Open to art students and those interested in art.

Purpose: To promote and provide the Salinas Junior College's "Little Art Gallery."

Block "S" Club

Membership: Open to all holders of a Salinas Junior College athletic award.

Purpose: To promote sociability and foster good sportsmanship.

Camera Club

Membership: Any person interested in photography.

Purpose: To learn and practice the correct methods of taking and developing pictures.

Junior Chamber of Commerce

Membership: Open to all men students who are interested in joining.

Purpose: To acquaint students with the programs of the business man.

Alpha Gamma Sigma

Membership: Open to all students with a grade point total of 35 and no grade below C.

Purpose: To promote scholarship and to secure a special study hall for honor students.

W. A. A.

Good selection in the athletic program is offered this semester in the women's department, such as hockeyl, archery, tennis, riding, swimming, posture, golf, and modern dancing. Full-semester choices will be posture, golf, riding and modern dancing; badminton, clogging, and a few others will be mid-semester choices in place of the other sports.

The Women's Athletic Association will carry on action ninth period as soon as classes become organized. Among the first activities will be hockey, tennis, and archery. This gives the women a choice between the three for automatically becoming a member of the W. A. A. after going out for one sport.

All freshmen women are urged to come out for hockey. Last year they didn't show up as a good team and made little competition for the sophomore team.

Practically all the women have finished with their medical and optical examinations, and as soon as possible, Miss Hutchinson will post her free hours on the gym bulletin board for girls to consult her upon any part of their examinations.

PANTHER SPORTS

SPORT Comments

By MANNY

"This year's Panther eleven is the team to beat," declares Head Coach Bud Winter. "Although green, they have the makings of a championship club."

Having watched the gay colored gladiators tangle last Saturday on the scrimmage field, the editor of this column would like to point out to his dear readers who's who in the much talented football circle.

First of all starting at left end, it looks like Hayford is the boy to watch on this flank. His blocking and tackling is a sight for sore eyes to behold. But hard pressing him for honors is Dan Di Pauli, a hard-hitting, pass-snatching end who is bound to see plenty of action this fall.

The left tackle post is held down by a 210 pounder who in all probability will not let it go. This tackle, Martin Nodilo, is the best defensive linesman on the field. When he tackles, opponents think they've been hit by a six-ton truck.

Guarding the left guard position is Burton Stokes, the good-looking gentleman footballer, who placed second on the all-conference J. C. team last year. Should he continue the good work he started last Saturday, he will be on the first string all-J. C. eleven.

The center position is the biggest mixup of all. Although Keith Pope is holding down the Keith Pope is holding down the first string berth right now, Gordon Brown and Charles Marshall will press him for the position. Charley Marshall is the boy who gave Dooley Bruno a bad time in scrimmage and Gordon Brown is the man who was blocking so hard that the business men downtown were complaining about the noise. But don't let us forget Keith Pope, who besides centering that ball as straight as an arrow, can block and tackle equally well.

The right guard berth at the present time is being held down by Jackie Dolan, the fastest running guard on the squad this year, but coming in fast is Willard Branson, the boy who in scrimmage threw the first team back for a loss in the first three plays. Coach Winter then took him out to give his first team a chance to work their plays. Watch this boy go.

Starting at left tackle, last Saturday, was Jack Rittenhouse, one of the fastest charging linemen on the field. He also is one of the deadliest tacklers on the squad. Right behind Jack, pressing him hard, is Jack Raine, a local boy, and Walter Trotter. These boys are liable to break into the starting lineup at any time.

At the right end berth there is a toss-up as to who will get the starting call. At the present time it is Fred Kmetovic, that hard-driving San Jose lad. Fred is equally as good on defense as he is on offense. Therman Fought was formerly a backfield man but was shifted to end because of his defensive ability. Both he and Fred are the best pass-swippers on the squad.

Now that the line is well taken care of, for the time being at least, let's go to the backfield where the biggest mixup of all is taking place.

Starting off at fullback, we have that old veteran returning, Bill Cavalli. Bill is a triple-threat man and more than probably will hold his position, but Jack Cornett, a hard-blocking and passing star, will make it plenty tough for him.

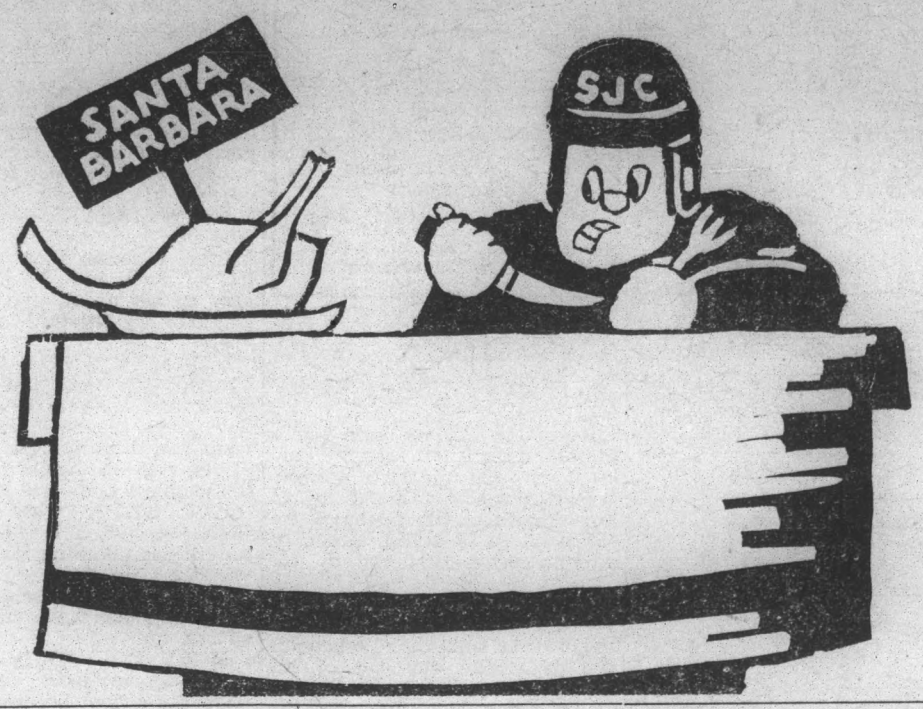

Holding down the right halfback's job is Don Paul, the Romeo of the gridiron. Don held down this position last year but with such stars as John Mapa and Don Butcher around, he's sure to have a tough time. Mapa, last Saturday, tore off for long gains time and again. At the present time, Butcher is out with a sore knee, but when he comes back watch him cut up that defensive line.

Now we come to that highly touted position, the left halfback's, or more commonly known as the tailbacks. There are three men trying out for this job, each as good as the other. The most publicized footballer on the gridiron is Dooley Bruno, but publicity doesn't get a first-string berth. Dooley is the best punter on the squad, besides the hardest runner. Second, we have that little tough guy, Pump Vella, the boy who handles a football as if it was his own mother. Pump, at the present time, is running on the first team.

Next on this much publicized list is Charley Lewis, the boy from Pacific Grove who can make a football talk. With such a list of tailbacks, Coach Winter ought to kneel down tonight and give thanks.

Now to that all-important position on the team, the quarterback, commonly known as the grain storm or brain trust. Manny Chappell is barking signals for the first team and in all probability will continue doing so. Behind him is Harry Priddy a local boy who, with Jack Kennedy, another local, will be ready to go through plenty for SJC.

These are the names you will hear and read about. Don't forget them.

Personalities

Salinas Junior College has the privilege of having enrolled in its student body one of the most promising and outstanding athletes in the country. Harold Davis is considered to be one of the fastest sprinters in the nation and is viewed by many to be a competitor in the 1940 Olympics on the United States track squad.

Davis was born in Salinas although he was graduated from Live Oak High School in Morgan Hill previous to his enrollment here. Ask why he chose SJC over other schools, he stated that he was undecided about the future and since he liked it here, he would train and compete on the Panther track team until he had made up his mind. His main ambition is to participate in the forthcoming Olympics, the ultimate thing in the minds of all track and field athletes.

He holds many titles and records, the main one being the Junior P. A. A. His official time of 9.7 in the 100 and 21 flat in the 220 yard dash, is very good in any kind of competition.

All sport fans and critics that have seen him predict a great future for him and the Salinas coaches expect great things from him as a member of the Jaysee team.

Other new personalities among the athletes around school include Dooley Bruno, all-C. C. A. L. fullback from Monterey. He is as yet undecided about his future — gather 'round gals! We have been wondering if he could be any relation to Tony Galento.

Fred Kmetovic, an end from San Jose high, is majoring in physical education, and will probably go on to either Stanford or San Jose State. He is a good-looking, good-natured fellow already popular with his teammates.

Lynn Hasenstaub, from Illinois, is trying for the left halfback position. He is enrolled in a business course, and is also very interested in baseball, having played in softball leagues all summer.

Hollywood has its three Lane sisters, and Salinas Junior College has the three Mapa brothers. Al, best-looking of the three, is playing left end. Johnnie is out for either right halfback or fullback, and plans to continue his education at an aeronautical

LARGE TURNOUT FOR BOXING

Twenty-two aspirants, the largest boxing turnout ever to answer roll call at this school, are chafing at the bit ready to join the ranks of the Salinas Jaysee championship boxing team.

Coach Peavy reports that there will be workouts every afternoon on the two new punching bags recently installed.

Work will be started immediately in order to get into condition and fill the gaping holes left by such men as Norman Rial and Abie Fuji, undefeated in their respected weights last year.

Mike Mapa, 135 pound flash from Hollister, will be in there for his first year and also for the lightweight championship. He has made a real name for himself in amateur circles. Watch this boy go.

Returning are such stars at Whitaker, Hashimoto and our flashy little Pump Vella. Supporting these stars are such future greats as Al Mapa, John Mapa, Hollister aces, and Torry Butler, a future Jack Johnson, and many others.

NINE GAMES TO BE WON

ALL HOME GAMES UNDER NEW LIGHTS

Following is the 1939 Salinas Junior College football schedule. There is a total of six home games, all to be played under the lights in the Lettuce Bowl. Season tickets may be obtained for only $2.50. This schedule is less two games than last year's calendar. Probably the outstanding game of the season will be played on November 11 with Menlo Junior College.

Sept. 22 — Santa Barbara Frosh
Sept. 29 — San Jose State Frosh
Oct. 6 — Reedley Junior College
Oct. 13 — Porterville Junior Col.
Oct. 27 — Santa Rosa Junior Col.
Nov. 11 — Menlo Junior College

Games Away

Oct. 20 — Marin Junior College
Nov. 3 — Placer Junior College
Nov. 17 — Yuba Junior College

Mr. Peavy (to boxer): "Well, Mike, I'm afraid you're licked now."

Mapa (gazing dizzily across to opposite corner): "Yeah, I should have got him in the first round when he was alone."

Intramural Sports Now In Session

The intramural sports program organized by Coach Ed Adams is now in session. The program will cover all major and minor sports. A selected group of active sophomores will govern the program with managers in charge of different departments such as publicity, statistics, refereeing, equipment, etc. All disputes will be settled by the body of managers.

All freshman and sophomore men are eligible excepting those who have received their Block "S" in some particular sport, and members of a varsity team. No one may be a member of more than one team. No assumed names may be used and professional men are prohibited.

The teams will be organized through the school clubs and different "schools", forestry, engineering, agriculture, commerce, etc. The games will commence at noon and run on into the afternoon.

Awards will be issued, the type of which will be decided at a later date.

The sports for the fall term will be as follows: turkey run, six-man football, volley ball, fall golf, ping pong, foul throwing, and tennis. The sports for the rest of the school year have been organized and will be issued in the near future.

Any further information regarding intramural sports will be gladly given by Coach Adams.

BLOCK "S" TO ELECT OFFICERS

Nominations for club officers was the official business cleared up in last Tuesday's Block "S" Club meeting held in the main building and presided over by A. Pump Vella. Nominated for the 1939-40 presidential seat were Vella and Marlen Dimick. Unaminously elevated into the position of vice-president was Jack Dolan, and Floyd Wilke was given the same treatment in the secretarial department. These boys do not have to worry about the securing of votes for the coming election because they now fill their respective positions through the majorative and "raised hand" system. But, treasurer-nominative Don Paul and Burton Stokes, as well as the participants in the presidential race, are to battle for the honored offices in a special election to be held in the near future. All club members are reminded to watch the main bulletin board for coming announcements.

ATHLETES, SEE LEMOS AT ONCE

All football players are requested to fill an application blank for membership in the Northern California Junior College Conference with John Lemos, if they have not done so. Athletes will not be eligible to play in the Santa Barbara game if they do not do so immediately. There is no charge to register in the conference.

"Willie, how dare you kick your little brother in the stomach?"

"It's his own fault . . he turned around."
